CHAD HOUSER

Founder CEO of Café Momentum and Momentum Advisory Collective

“At Café Momentum, our program is designed by the young people we serve so that it can best address the inequities, challenges and barriers our youth face. Beyond the allure of a fine dining restaurant, our mission is clear: break stereotypes around justice-involved youth and empower them to dream and reach their fullest potential. We are thrilled to be back at the Super Bowl with our partner, Stand Together Foundation, to demonstrate the positive effects of the Momentum Model on a national stage to build momentum and create change for youth justice.”

SHAUN ALEXANDER

NFL Legend, Stand Together Ambassador

“The dreams of all youth matter profoundly for the future of America. Many of our youth lack the necessary guidance and support for success, especially within our juvenile justice system. Café Momentum is changing the way we support young people who have made mistakes. The Momentum Model not only disrupts the cycle of incarceration but empowers these youth to unlock their potential. My goal is to establish a Café Momentum in every city. With the support of Stand Together Foundation, Café Momentum is expanding their reach towards nation-wide impact so more deserving youth can be empowered to rise.”

DHANI JONES

“It’s inspiring to see what these young people are capable of with the right tools and opportunities available to them. Being at the Super Bowl is an opportunity to showcase how Café Momentum and Stand Together are shifting the narrative around the juvenile justice system. Their success underscores the need for every community to reimagine the justice system in a way that allows our youth to be empowered.”
